

AMA Victoria Peer Visitor Program

Peer Visitor Program – expression of interest from volunteers

The Peer Visitor Program aims to link retired elderly doctors who may be isolated or living in a residential care facility with volunteer visitors who are also medical practitioners. Each volunteer will undertake to visit or contact their elderly colleague on a regular basis, preferably once a fortnight, and provide companionship.

This is an ideal volunteer role for a doctor who has a good rapport with older people and who needs to fit volunteering around a busy schedule. Doctors of all ages and stages of their careers and from all areas of Victoria are needed as visitors.

Name:.....
